

Summer 2011 W.K. Kellogg Biological Station

MICHIGAN STATE
UNIVERSITY

Dr. John Fryxell
University of Guelph

June 6: Spatial predator-prey dynamics
June 8: Movement at multiple scales

Dr. Mathew Leibold
University of Texas

July 5: Metacommunity ecology: Why do it?
Where are we and where to next?
July 7: The resilience and stability of pond
ecosystems

Dr. Mark McPeck
Dartmouth College

July 11: Past climate change and diversification:
How did we get the biota we have today?
July 13: Patterns of clade-level diversification
across animals and plants
