

W.K. Kellogg Biological Station

DESSERT WITH DISCUSSION

Monday, October 10, 2016, 7 p.m., KBS Academic Auditorium

A GLOBAL CONSERVATION ICON UNDER CLIMATE CHANGE

- Learn about the threats climate change poses to global ecosystems and human well-being through its effects on wildlife and plant species
- Gain a globalized perspective on climate change through Dr. Liu's research on the effects of bamboo supply shortages on giant pandas
- Meet local organizations that provide opportunities to educate and advocate about climate-change-related issues and conservation

Enjoy coffee, tea and delicious locally sourced desserts, provided free of charge by the W.K. Kellogg Conference Center. A cash bar featuring house wines & Michigan craft beer will be open at 7:00 p.m.
