Fall Events Fun for the Whole Family at the W.K. Kellogg Bird Sanctuary

Augusta, Mich. — October is a special month at the W.K. Kellogg Bird Sanctuary, with three events designed to be enjoyed by visitors of all ages who want to learn more about birds.

Get to know the Sanctuary's ambassador birds of prey at [Birds of Prey Live](#) on October 1 from 1-2:30 p.m. The Sanctuary is home to a number of birds of prey, including owls, hawks, and bald eagles, who are injured and cannot survive in the wild. Visitors of all ages can participate in a variety of games and activities. Admission for members is \$5/adult, \$4/senior or student and \$3/child, and for non-members it is \$7/adult, \$6/senior or student and \$5/child.

On October 12, from 9-10:30 a.m., join our experts on an autumn morning bird walk to see the birds of the Sanctuary at our monthly [Birds and Coffee Walk](#). Following the walk, participants can enjoy a cup of bird-friendly coffee during a discussion of the morning's finds.

These Birds & Coffee Walks are held every second Wednesday of the month (Upcoming: October 12, November 9 and December 14). Admission is free for members, and is \$5/adult, \$4/senior or student and \$3/child for non-members.

As part of the [regional Arts & Eats tour](#), visit the Bird Sanctuary to see beautiful local art on [October 15](#) and [16](#). This is a great opportunity to get to know artists in the area, as well as explore the grounds of the Bird Sanctuary. The Sanctuary will be open on October 15 from 9 a.m. to 5 p.m., and on October 16 from 11 a.m. to 4 p.m. Admission is free!

All of these events will be held at the W.K. Kellogg Bird Sanctuary, located at 12685 East C Ave, in Augusta. To learn more, visit birdsantuary.kbs.msu.edu, call 269-671-2510 or email birdsantuary@kbs.msu.edu.

W.K. Kellogg Biological Station is Michigan State's largest off-campus educational complex. KBS is a world-class research institute where students and faculty are working to understand and solve real-world environmental problems.

For nearly a hundred years, KBS has served as a liaison between Michigan State University and the public, providing the community with examples of science's crucial role in sustaining natural and managed communities. To learn more about KBS, visit us online at kbs.msu.edu.
