

Position: **Landscape Design**

Level: *1/2-time* for 12 weeks

Mentor: Mark Williams (KBS) and Sandy Bliesener (OCBA)

This intern will work with the KBS Physical Plant and a professional landscape architect from O'Boyle, Cowell, Blalock & Associates, Inc. (OCBA), on the planning and design process for renovation and restoration of the landscapes and lagoon surrounding the Windmill Island, part of the historic Kellogg Manor House estate. This internship will continue initial planning started by the 2014 summer intern and is step #2 in a series of summer internships to be associated with this project.

The intern will work as part of a team to further initial concepts identified in 2014 to create a landscape plan that reflects the original design, enhances the Estate, is consistent with the KBS commitment to sustainability and provides an area that can be used for educational programs. The Intern should be able to work with landscape design software, be willing to commute to Kalamazoo to work with landscape architects at OCBA and able to work with historical materials to determine how this area was originally built and used. The individual should be able to work independently as well as part of a team, have excellent organizational skills, and possess a valid driver's license.

Desired background: Landscape Architecture, Horticulture, or related field.

Recommended courses: Wetland Ecology & Management, Plant Systematics, Ecology
